SWATI KUMARI

Email: ss08swati14singh@gmail.com

SKILLS

- Programming Languages: Proficient in C++ with a strong understanding of Object-Oriented

Programming (OOP) concepts; good working knowledge of JavaScript for building interactive web

applications.

- Operating Systems: Solid understanding of fundamental operating system concepts and principles.

- Database Management Systems (DBMS): Basic understanding of DBMS concepts and

functionalities.

**EDUCATION** 

- Bachelor of Technology (B.Tech) in Computer Science Engineering

Inder Kumar Gujral Punjab Technical University, Main Campus, Kapurthala, Punjab

(Currently in 3rd Year / 5th Semester)

- Senior Secondary Education (12th Grade)

DAV Public School, Medical Unit, Gaya, Bihar - 2021

Scored: 77%

**PROJECTS** 

Library Management System (HTML, CSS, JavaScript)

- Developed a responsive Library Management System web app using HTML for structure, CSS for

styling, and JavaScript for interactivity.

- Users can add, search, and delete book records dynamically.

- Implemented local storage for temporary data persistence.

- Focused on intuitive UI and efficient DOM manipulation for a seamless user experience.

**OVERVIEW** 

I am eager to apply for the Skillsequel Internship Program as a third-year Computer Science

student. This opportunity aligns with my passion for real-world problem-solving and continuous

learning. With a solid foundation in C++ and growing expertise in JavaScript, I am confident in my

ability to contribute meaningfully to technical projects.

Joining Skillsequel will:

- Deepen my hands-on experience with industry-relevant tools and technologies.

- Enhance my technical skills and confidence in software development.

- Provide valuable mentorship and exposure to professional collaboration.
